

MODEL : THW SERIES

4M TRIPLE-FOLDING ROTAVATOR

THREE STAGE FOLDER ROTAVATOR

- ✓ Ultra-wide 4M working width for maximum field efficiency
- ✓ Designed for large-scale tillage operations
- ✓ Operable even in folded condition for added versatility
- ✓ Excellent mobility and storage convenience

Key Technology Highlights

- Spiral bevel gearbox ensures powerful and smooth power transmission
- Hydraulic rack gear and rotary gearbox provide stable and reliable folding
- Dual upper frame structure prevents twisting and enhances durability
- Special group seals protect gears and bearings for long-term operation
