

MODEL : THW SERIES

5M / 6M TRIPLE-FOLDING ROTAVATOR

THREE STAGE FOLDER ROTAVATOR

- ✓ Ultra-wide 5M-6M working width for maximum productivity in large-scale farming
- ✓ Stable performance with tractors over 110 horsepower
- ✓ Electronically controlled folding system for easy operation from the driver's seat
- ✓ Capable of operation even in folded configuration

Key Technology Highlights

- Spiral bevel gearbox delivers strong, smooth, and efficient power transmission
- Hydraulic rack gear with rotary gearbox ensures stable and precise folding performance
- Dual upper frame structure prevents frame distortion and enhances long-term durability
- Special group seals protect internal components, ensuring extended gear and bearing life
