

MODEL : DP SERIES

DEEP PLOWING ROTAVATOR

DEEP PLOWING ROTAVATOR

- ✓ Specially designed for confined environments such as greenhouses and vinyl houses
- ✓ Minimizes shaft vibration for stable and precise deep tillage performance
- ✓ Maintains high stability and durability even during continuous deep plowing operations
- ✓ Optimized for breaking hard soil layers and improving soil structure

Key Technology Highlights

- ✓ Integrated high-strength rotor shaft structure prevents distortion under deep working conditions
- ✓ Hypoid gear system ensures efficient and stable power transmission
- ✓ Heavy-duty blades provide strong durability even in deep and compacted soil layers
- ✓ Designed for restricted working environments, enabling flexible operation in limited spaces

Main Features		Technical Specifications		Performance Data		Maintenance & Support	
Model	WR1650 DP	Power (kW)	16.5	Working Width (m)	1.65	Weight (kg)	1650
Max. Depth (cm)	25	Rotation Speed (rpm)	100	Max. Torque (Nm)	165	Warranty (Years)	3
Blade Material	High Carbon Steel	Gear Type	Hypoid	Max. Fuel Consumption (L/h)	16.5	Service Network	Global
Blade Length (cm)	165	Shaft Material	High Strength Steel	Max. Working Speed (km/h)	16.5	Training Programs	Available
Blade Width (cm)	16.5	Frame Material	High Strength Steel	Max. Working Depth (cm)	25	Parts Availability	High
